

KnockOut™ PLUS is an all natural fish treatment that eliminates PLUS prevents external single-celled parasite or fungal infections. KnockOut™ PLUS works extremely well with pond fish species such as koi and goldfish and unlike most fish treatments, there is no need to remove your filters before treatment. Furthermore, when used routinely, KnockOut™ PLUS works as a strong preventative treatment. Use anytime new fish are added, during pond cleanouts, during spring start-up or any time fish are stressed.

KnockOut™ PLUS is a broad spectrum treatment for a variety of parasites including ichthyophthirius (ich), sporozoan parasites, dinoflagellate infections as well as fungi such as saprolegnia, achlya, leptomitius and pythium. May be used with most invertebrates including snails.

Common warning signs include abnormal behavior such as scratching, flashing, jumping, disinterest in feeding and/or isolating themselves from other fish. Other bodily signs include red irritation, white spots, clamped fins, grayish film covering body, heavy breathing and/or may look lethargic.

Application Rates

1 fl oz / 30 mL	Treats up to 60 Gallons
2 fl oz / 60 mL	Treats up to 120 Gallons
4 fl oz / 120 mL	Treats up to 240 Gallons
8 fl oz / 240 mL	Treats up to 480 Gallons

SHAKE WELL BEFORE USING

POND SIZE CALCULATION: L x W x Avg Depth x 7.5 = # of gallons

DIRECTIONS:

Standard Application Rate: Upon discovery of infection, apply daily for 7 days. When there are no visible signs of infection, it is recommended to continue treatment daily for an additional 3 days to ensure infection will not return. Disperse over the majority of the surface area of the pond.

Persistent Problem Application Rate: For infections that last more than 7 days after standard application, treat twice per day. Apply once in the morning and once in the evening. Do not apply as a bath application. KnockOut™ PLUS works best as an in-pond additive.

Preventative Application Rate: Treat daily for 7 days anytime new fish are added, during pond cleanouts, during spring start-up or any time fish are stressed.

DO NOT USE OTHER CHEMICALS IN POND WHILE TREATING WITH THIS PRODUCT.

Caution: Failure to use as directed or changes in water conditions not consistent with label may result in loss of injury to aquatic life. CrystalClear®, Inc. is not responsible for any loss of aquatic life.
