

MuckOff™ tablets are designed to sink to the bottom of the pond to quickly reduce muck and sludge caused from dead algae, fish waste, leaves and twigs. MuckOff™ easy-to-use tablets are a blend of natural bacteria and enzymes that help clear water by removing excess nutrients and reducing sediment. Great for ponds with rocks and gravel.

MuckOff™ is safe for use with fish, plants, birds or domestic animals that drink from the pond.

Application Rates

3 tablets	Treats up to 500 Gallons
6 tablets	Treats up to 1,000 Gallons
12 tablets	Treats up to 2,000 Gallons
24 tablets	Treats up to 4,000 Gallons

POND SIZE CALCULATION:

L x W x Avg. Depth x 7.5 = # of Gallons

Routine Application Rate: Apply MuckOff™ once every 4 weeks.

Persistent Problem Application Rate: For ponds with heavy muck buildup treat at the prescribed rate per gallon above every 2 weeks until desired results.

For Best Results: Disperse MuckOff™ tablets evenly throughout the pond. Optimal Water Conditions: pH: 6.5 - 8.5, Dissolved Oxygen: 5 PPM, Temperature 50 ° F.

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in loss or injury to aquatic life. CrystalClear®, Inc. is not responsible for any loss of aquatic life.
